

## List of Figures

<b>Figure</b>	<b>Title of Figure</b>	<b>Page no.</b>
1.1.	Basic CBIR system	6
2.1.	Basic Steps of the CBIR	9
2.2	Example of Color Retrieval	10
2.3	Example of Texture Retrieval	11
2.4	Example of Shape Retrieval	12
2.5	Example of Primitive Feature	13
2.6	Stationary Wavelet Decomposition	21
2.7	gray-level co-occurrence matrix	22
2.8	An 8x8 checkerboard image	24
2.9	Maximum margin hyperplanes for a SVM	28
2.10	Illustration of the BTC Compression Process	33
2.11	Illustration of the BTC Decompression Process	34
2.12	Binary Quantizer	35
3.1	Block Diagram of CBIR System	38
3.2	Flow Chart for Image Retrieval	41
3.3	Query image	42
3.4	Resize Image	43
3.5	Histogram Process	44
3.6	HSV Histogram image	48
3.7	Stationary Wavelet Decomposition of a Two-dimensional Image	49
3.8	Processing of GLCM	51
3.9	Color Image Representations and RGB Matrix	53
3.10	Grayscale Image Representations	53
3.11	Different Templates for Splitting Images	54
4.1	Sample Images from Generic Image Database	56
4.2	Main GUI	57

4.3	Output of L2 Similarity Metrics Results on African images	58
4.4	Output of correlation Similarity Metrics Results on African images	60

## **List of Tables**

<b>Table</b>	<b>Title</b>	<b>Page no.</b>
3.1	Comparison of DWT and DCT (Discrete cosine Transform)	50
4.1.	Performance Analysis of Proposed CBIR Technique	61
4.2	Performance Accuracy of similarity metrics	63

## **List of Graphs**

<b>Graph</b>	<b>Title</b>	<b>Page no.</b>
4.1.	Precision and Recall Chart for Correlation metrics	61
4.2	Confusion Matrix Overall accuracy = 88%	62
4.3	Accuracy of similarity metrics	64
